RESOLUTION NO. _____

RESOLUTION SUPPORTING SB 1544 AND HB 1223, OR
SIMILAR LEGISLATION THAT WOULD CREATE AN
INTERAGENCY WORKGROUP TO SHARE INFORMATION,
COORDINATE ONGOING EFFORTS, AND COLLABORATE
ON INITIATIVES RELATING TO WEATHER EVENTS,
INCLUDING SEA LEVEL CHANGE AND FLOODING

WHEREAS, Senate Bill 1544 (“SB 1544”) and House Bill 1223 (“HB 1223”) have been
filed for consideration during the Florida Legislature’s 2016 session by Senator Jeff Clemens (D
– Lake Worth) and Representative Kristin Jacobs (D – Coconut Creek), respectively; and

WHEREAS, this legislation would create an interagency workgroup for the purpose of
sharing information on the current and potential impacts of weather events throughout Florida,
coordinating the ongoing efforts of state agencies in addressing the impacts of weather events,
and collaborating on statewide initiatives to address the impacts of weather events; and

WHEREAS, among others, the interagency workgroup would consider weather events
such as sea level change, flooding, high tides, storm surge, saltwater intrusion, stormwater
runoff, extreme heat, drought, and wildfires; and

WHEREAS, the interagency workgroup would be comprised of representatives from
each state executive department, each water management district, the Florida Public Service
Commission, the Florida Fish and Wildlife Conservation Commission, the Florida Department of
Military Affairs, the Florida Office of Insurance Regulation of the Financial Services
Commission, the Florida Office of Financial Regulation of the Financial Services Commission,
and the Florida Board of Governors of the State University System, with the director of the

Florida Division of Emergency Management, or the director's designee, serving as the liaison to, and coordinator of, the workgroup; and

WHEREAS, the interagency workgroup would be tasked with, among other things, preparing an annual report for submission to the Governor, the President of the Senate, and the Speaker of the House of Representatives regarding the current initiatives of the workgroup in coordinating and developing efforts to address the current and potential impacts of weather events; and

WHEREAS, at a minimum, the interagency workgroup's annual report would be required to: (1) assess the relevance, level, and significance of current agency efforts to address the impacts of weather events; (2) create a uniform vulnerability assessment based on current scientific literature to identify and evaluate potential weather impacts that the agencies have not addressed; and (3) strategize and prioritize ongoing efforts to address the impacts of weather events; and

WHEREAS, sea level rise, flooding, and other extreme weather events are of particular concern to Miami-Dade County and its residents, given the County's close proximity to the coastline and low-lying topography, which make it potentially vulnerable to impacts from such events; and

WHEREAS, the interagency workgroup to be established by SB 1544 and HB 1223 would serve a valuable purpose and fulfill an important function to Miami-Dade County and its residents; and

WHEREAS, accordingly, this Board wishes to urge the Florida Legislature to enact such legislation,
